Alignment Healthcare Delivers Strong First Quarter 2026 Results, Demonstrating Disciplined Growth and Margin Expansion

April 30, 2026

- *Delivers $1.24 billion in total revenue, representing 33.3% growth year-over-year*
- *Grows Medicare Advantage membership 30.9% year-over-year to approximately 284,800 members*
- *Raises the midpoint of all guidance metrics: membership, revenue, adjusted gross profit and adjusted EBITDA*

ORANGE, Calif., April 30, 2026 (GLOBE NEWSWIRE) -- Alignment Healthcare, Inc. (NASDAQ: ALHC), today reported financial results for its first quarter ended March 31, 2026.

“Our first-quarter performance demonstrates that Alignment continues to grow with discipline,” said John Kao, founder and CEO. "We expanded our profitability by executing across sales, clinical operations and cost management, even as the Medicare Advantage environment continues to change. We delivered strength within our results even while we are investing in our people, processes and technologies. The improvements we are making across each of these areas will position us to scale the business and achieve our embedded earnings potential.”

First Quarter 2026 Financial Highlights

Forward-Looking Statements

This release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995, as amended. These forward-looking statements include statements regarding our future growth and our financial outlook for the quarter ending June 30, 2026, and year ending Dec. 31, 2026. Forward-looking statements are subject to risks and uncertainties and are based on assumptions that may prove to be inaccurate, which could cause actual results to differ materially from those expected or implied by the forward-looking statements. Actual results may differ materially from the

results predicted, and reported results should not be considered as an indication of future performance. Important risks and uncertainties that could cause our actual results and financial condition to differ materially from those indicated in the forward-looking statements include, among others, the following: our ability to attract new members and enter new markets, including the need for certain governmental approvals; our ability to maintain a high rating for our plans on the Five Star Quality Rating System; our ability to develop and maintain satisfactory relationships with care providers that service our members; risks associated with being a government contractor, including potential federal reductions in MA funding; changes in laws and regulations applicable to our business model; risks related to our indebtedness; changes in market or industry conditions and receptivity to our technology and services; results of litigation or a security incident; and the impact of shortages of qualified personnel and related increases in our labor costs. For a detailed discussion of the risk factors that could affect our actual results, please refer to the risk factors identified in our Annual Report on Form 10-K for the year ended Dec. 31, 2025, and the other periodic reports we file with the SEC. All information provided in this release and in the attachments is as of the date hereof, and we undertake no duty to update or revise this information unless required by law.

Non-GAAP Financial Measures

Certain of these financial measures are considered “non-GAAP” financial measures within the meaning of Item 10 of Regulation S-K promulgated by the SEC. We believe that non-GAAP financial measures provide an additional way of viewing aspects of our operations that, when viewed with the GAAP results, provide a more complete understanding of our results of operations and the factors and trends affecting our business. These non-GAAP financial measures are also used by our management to evaluate financial results and to plan and forecast future periods. However, non-GAAP financial measures should be considered as a supplement to, and not as a substitute for, or superior to, the corresponding measures calculated in accordance with GAAP. Non-GAAP financial measures used by us may differ from the non-GAAP measures used by other companies, including our competitors. To supplement our consolidated financial statements presented on a GAAP basis, we disclose the following non-GAAP measures: Medical Benefits Ratio, Adjusted EBITDA and Adjusted Gross Profit as these are performance measures that our management uses to assess our operating performance. Because these measures facilitate internal comparisons of our historical operating performance on a more consistent basis, we use these measures for business planning purposes and in evaluating acquisition opportunities.

Adjusted EBITDA

Adjusted EBITDA is a non-GAAP financial measure that we define as net income (loss) before interest expense, income taxes, depreciation and amortization expense, certain litigation costs, and equity-based compensation expense.

Adjusted EBITDA should not be considered in isolation of, or as an alternative to, measures prepared in accordance with GAAP. There are a number of limitations related to the use of Adjusted EBITDA in lieu of net income (loss), which is the most directly comparable financial measure calculated in accordance with GAAP.

Our use of the term Adjusted EBITDA may vary from the use of similar terms by other companies in our industry and accordingly may not be comparable to similarly titled measures used by other companies.

Medical Benefits Ratio (MBR)

We calculate our MBR by dividing total medical expenses, excluding depreciation, and medical equity-based compensation, by total revenues in a given period.

Adjusted Gross Profit

Adjusted gross profit is a non-GAAP financial measure that we define as income (loss) from operations before depreciation and amortization, medical equity-based compensation expense, and selling, general, and administrative expenses.

Adjusted gross profit should not be considered in isolation of, or as an alternative to, measures prepared in accordance with GAAP. There are a number of limitations related to the use of adjusted gross profit in lieu of income (loss) from operations, which is the most directly comparable financial measure calculated in accordance with GAAP.

Our use of the term adjusted gross profit may vary from the use of similar terms by other companies in our industry and accordingly may not be comparable to similarly titled measures used by other companies.
