

# Alignment Healthcare Reports Second Quarter 2023 Results; Beats Outlook Across All Four Critical KPIs

August 3, 2023

- Reports \$462.4 million in total revenue, up 26.2% year-over-year
- Medicare Advantage enrollment increases to approximately 112,200 members, up 17% year-over-year

ORANGE, Calif., Aug. 03, 2023 (GLOBE NEWSWIRE) -- Alignment Healthcare, Inc. (NASDAQ: ALHC), a tech-enabled Medicare Advantage company, today reported financial results for its second quarter ended June 30, 2023.

"Our employees continue to deliver results by putting our members first, helping us to beat guidance across all four of our key metrics, including membership, revenue, adjusted gross profit and adjusted EBITDA," said John Kao, founder and CEO. "We are making our mission of changing health care one person at a time a reality."

## Second Quarter 2023 Financial Highlights

All comparisons, unless otherwise noted, are to the three months ended June 30, 2022.

1. Adjusted gross profit is a non-GAAP financial measure that is presented as supplemental disclosure, that we define as loss from operations before depreciation and amortization, clinical equity-based compensation expense, and selling, general, and administrative expenses. We cannot reconcile our estimated ranges for adjusted gross profit to loss from operations, the most directly comparable GAAP measure, and cannot provide estimated ranges for loss from operations, without unreasonable efforts because of the uncertainty around certain items that may impact loss from operations, including equity-based compensation expense and depreciation and amortization, that are not within our control or cannot be reasonably predicted.

2. Adjusted EBITDA is a non-GAAP financial measure that is presented as supplemental disclosure, that we define as net loss before interest expense, income taxes, depreciation and amortization expense, reorganization and transaction-related expenses, gains or losses from subleases and equity-based compensation expense. We cannot reconcile our estimated ranges for Adjusted EBITDA to net loss, the most directly comparable GAAP measure, and cannot provide estimated ranges for net loss, without unreasonable efforts because of the uncertainty around certain items that may impact net loss, including equity-based compensation and amortization, that are not within our control or cannot be reasonably predicted.

## Forward-Looking Statements

This release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995, as amended. These forward-looking statements include statements regarding our future growth and our financial outlook for the quarter ending September 30, 2023, and year ending

December 31, 2023. Forward-looking statements are subject to risks and uncertainties and are based on assumptions that may prove to be inaccurate, which could cause actual results to differ materially from those expected or implied by the forward-looking statements. Actual results may differ materially from the results predicted, and reported results should not be considered as an indication of future performance. Important risks and uncertainties that could cause our actual results and financial condition to differ materially from those indicated in the forward-looking statements include, among others, the following: our ability to attract new members and enter new markets, including the need for certain governmental approvals; our ability to maintain a high rating for our plans on the Five Star Quality Rating System; our ability to develop and maintain satisfactory relationships with care providers that service our members; risks associated with being a government contractor; changes in laws and regulations applicable to our business model; risks related to our indebtedness, including the potential for rising interest rates; changes in market or industry conditions and receptivity to our technology and services; results of litigation or a security incident; the impact of shortages of qualified personnel and related increases in our labor costs; and the impact of COVID-19 on our business and results of operation. For a detailed discussion of the risk factors that could affect our actual results, please refer to the risk factors identified in our Annual Report on Form 10-K for the year ended December 31, 2022, and the other periodic reports we file with the SEC. All information provided in this release and in the attachments is as of the date hereof, and we undertake no duty to update or revise this information unless required by law.

## **Non-GAAP Financial Measures**

Certain of these financial measures are considered "non-GAAP" financial measures within the meaning of Item 10 of Regulation S-K promulgated by the SEC. We believe that non-GAAP financial measures provide an additional way of viewing aspects of our operations that, when viewed with the GAAP results, provide a more complete understanding of our results of operations and the factors and trends affecting our business. These non-GAAP financial measures are also used by our management to evaluate financial results and to plan and forecast future periods. However, non-GAAP financial measures should be considered as a supplement to, and not as a substitute for, or superior to, the corresponding measures calculated in accordance with GAAP. Non-GAAP financial measures used by us may differ from the non-GAAP measures used by other companies, including our competitors. To supplement our consolidated financial statements presented on a GAAP basis, we disclose the following non-GAAP measures: Medical Benefits Ratio, Adjusted EBITDA and Adjusted Gross Profit as these are performance measures that our management uses to assess our operating performance. Because these measures facilitate internal comparisons of our historical operating performance on a more consistent basis, we use these measures for business planning purposes and in evaluating acquisition opportunities.

## Adjusted EBITDA

Adjusted EBITDA is a non-GAAP financial measure that we define as net loss before interest expense, income taxes, depreciation and amortization expense, reorganization and transaction-related expenses, gains or losses on subleases and equity-based compensation expense.

Adjusted EBITDA should not be considered in isolation of, or as an alternative to, measures prepared in accordance with GAAP. There are a number of limitations related to the use of Adjusted EBITDA in lieu of net loss, which is the most directly comparable financial measure calculated in accordance with GAAP.

Our use of the term Adjusted EBITDA may vary from the use of similar terms by other companies in our industry and accordingly may not be comparable to similarly titled measures used by other companies.

## Medical Benefits Ratio (MBR)

We calculate our MBR by dividing total medical expenses, excluding depreciation and equity-based compensation, by total revenues in a given period.

### **Adjusted Gross Profit**

Adjusted gross profit is a non-GAAP financial measure that we define as loss from operations before depreciation and amortization, clinical equity-based compensation expense, and selling, general, and administrative expenses.

Adjusted gross profit should not be considered in isolation of, or as an alternative to, measures prepared in accordance with GAAP. There are a number of limitations related to the use of adjusted gross profit in lieu of loss from operations, which is the most directly comparable financial measure calculated in accordance with GAAP.

Our use of the term adjusted gross profit may vary from the use of similar terms by other companies in our industry and accordingly may not be comparable to similarly titled measures used by other companies.
